

Done	Phase	Task
Yes	1 - Foundation	Configure development environment
Yes	1 - Foundation	Establish project structure
Yes	1 - Foundation	Configure documentation generation
Yes	1 - Foundation	Define shared configuration
Yes	1 - Foundation	Establish logging and common utilities
No	2 - Core Platform Services	Implement Repository Tools
No	2 - Core Platform Services	Implement Workflow Engine
No	2 - Core Platform Services	Implement Context Builder
No	2 - Core Platform Services	Implement shared communication contracts
No	2 - Core Platform Services	Implement platform orchestration
No	3 - First End-to-End Workflow	Execute repository discovery
No	3 - First End-to-End Workflow	Build validated context package
No	3 - First End-to-End Workflow	Invoke Documentation AI Agent
No	3 - First End-to-End Workflow	Validate proposed documentation artifact
No	3 - First End-to-End Workflow	Produce reviewable documentation proposal
No	4 - AI Reasoning Integration	Implement Reasoning Service
No	4 - AI Reasoning Integration	Integrate AI provider interfaces
No	4 - AI Reasoning Integration	Generate proposed documentation updates
No	4 - AI Reasoning Integration	Produce documentation impact explanations
No	5 - Validation Services	Implement validation services
No	5 - Validation Services	Validate documentation consistency
No	5 - Validation Services	Validate links and referenced files
No	5 - Validation Services	Validate MkDocs build
No	5 - Validation Services	Generate validation reports
No	6 - Workflow Integration	Integrate component interactions
No	6 - Workflow Integration	Implement documentation review workflow
No	6 - Workflow Integration	Apply approved documentation changes
No	6 - Workflow Integration	Generate Git diffs
No	6 - Workflow Integration	Produce completion summaries
No	7 - Testing and Verification	Perform component testing
No	7 - Testing and Verification	Perform integration testing
No	7 - Testing and Verification	Validate end-to-end workflows
No	7 - Testing and Verification	Verify documentation quality
No	7 - Testing and Verification	Verify user approval workflows
